PolicyPatch

Completion Report

Job ID: PP-DEMO-0001
Client: Harbour Home Services (Demo)
Website: https://harbourhomeservicesdemo.netlify.app
Package: PolicyPatch Core Package (Compliance Essentials Implementation)
Delivered: 24 February 2026
Revision Window: 1 revision pass available until 3 March 2026

PolicyPatch implemented the Core Package compliance essentials on **Harbour Home Services**, including publishing the Privacy Policy and Terms pages, adding site-wide footer links (desktop + mobile), updating up to two (2) forms with point-of-collection privacy wording and an acknowledgement checkbox, and adding a dismissible cookie notice banner linking to the Privacy Policy.

Deliverables Completed

Deliverable	Status	URL/Location
Privacy Policy page	Verified	https://harbourhomeservicesdemo.netlify.app/privacy
Terms & Conditions page	Verified	https://harbourhomeservicesdemo.netlify.app/terms
Cookie notice banner	Verified	https://harbourhomeservicesdemo.netlify.app/
Footer links site-wide (desktop + mobile)	Verified	https://harbourhomeservicesdemo.netlify.app/ (footer site-wide)
Form 1: privacy notice + acknowledgement checkbox	Verified	https://harbourhomeservicesdemo.netlify.app/quote
Form 2: privacy notice + acknowledgement checkbox	Verified	https://harbourhomeservicesdemo.netlify.app/contact
QA checks completed	Verified	—

Evidence Appendix: See PP-01 to PP-07 (pages 3 – 8)

Implementation Notes

- Published the Privacy Policy and Terms pages as dedicated, publicly accessible URLs (confirmed pages load correctly and are not access-restricted)
- Verified footer links to the Privacy Policy and Terms display consistently across desktop and mobile and resolve to the correct pages.
- Updated included form(s) with a clear point-of-collection privacy notice positioned near the submit action.
- Added an acknowledgement checkbox on included form(s) referencing the Privacy Policy and Terms.
- Completed basic QA checks across relevant pages and forms, including link validation, layout/formatting review, and successful test submissions.

Scope Boundaries

This package provides standard website compliance essentials implementation for NZ small-business websites and improves transparency.

This service is not legal advice. PolicyPatch provides practical implementation based on common NZ small-business website requirements. If you require legal review, legal sign-off, or advice specific to your circumstances (including industry-specific compliance), you should engage a qualified lawyer.

Not included in this package:

- Legal advice, legal sign-off, or bespoke legal drafting
- Ecommerce-specific terms and policies (e.g. refunds/returns, subscriptions, payment disputes, chargebacks)
- Cookie consent platform setup, cookie scanning, or tracking/analytics audits
- Employment policies, contractor agreements, or internal HR documentation
- Complex data processing requirements (e.g. sensitive data categories, health information, cross-border transfer assessments)
- Custom compliance for regulated industries (e.g. financial services, healthcare, insurance)

Recommended Client Actions

- Ensure **hello@harbourhomeservices.demo** is actively monitored for privacy-related requests (e.g. access and correction requests).
- If you add or change forms, tracking/analytics tools, booking systems, email marketing platforms, or payment flows, request an update—your policy wording and form notices may need adjustment to stay accurate.

Evidence Appendix

The screenshots in this appendix are provided to confirm what was implemented.
